

2004 WEAPON SYSTEMS BOOK

PEO TACTICAL MISSILES

DISTRIBUTION STATEMENT:
Approved for public release; distribution unlimited.

PROGRAM EXECUTIVE OFFICE TACTICAL MISSILES

MISSION

Provide the American soldier with the finest, combat effective, and supportable tactical missile systems in the world in a timely and cost-effective manner while fully supporting The Army's Transformation.

GOALS

- † *Excel beyond all others in fielding the best tactical missile systems in the world.*
- † *Effectively team with industry.*
- † *Build the Army Acquisition Corps of the future.*
- † *Mature and weaponize critical technologies for the Future Force.*
- † *Reduce the Life Cycle Cost of our missile systems and in-theater logistics footprint.*

VISION

A world class government / industry team that gives the American soldier an unparalleled, overmatch tactical missile capability that allows our Army to fight and win on the 21st century battlefield with minimal casualties in the shortest time possible.

PROGRAM EXECUTIVE OFFICE TACTICAL MISSILES WEAPON SYSTEMS BOOK

Purpose

The purpose of this Weapon Systems Book is to provide a single authoritative source of basic technical and programmatic information relating to systems managed by the Program Executive Officer, Tactical Missiles. To facilitate the user's ability to gather system data, each system discussed is treated in a stand-alone manner. The result is that some information will be repeated in a number of system write-ups.

Modernization

PEO Tactical Missiles is charting the course of tactical missile acquisition strategy through FY 25. PEO Tactical Missiles synchronizes the Army and Joint approaches for evolving tactical missile and rocket programs with the necessary requirements and resources to realize The Army Vision. PEO Tactical Missiles is playing an important role in the Army's transformation by managing and developing systems that support the Current, Stryker Brigade Combat Team, and Future Forces.

PEO RESPONSIBILITIES

- Perform as the Army's centralized manager for assigned programs and report directly to the Army Acquisition Executive (AAE).
- As the responsible management official, provide overall direction and guidance for the development, acquisition, testing, production, product improvement, fielding, and sustainment of assigned programs.
- Place primary management emphasis and oversight on total life cycle cost, schedule, and performance while ensuring compliance with applicable national policies such as environmental protection and socioeconomic programs.
- Maintain a total Army perspective in managing assigned programs and keep the Senior Army Leadership fully apprised of program status, to include problems which could affect the Army's ultimate commitment to the program.

TABLE OF CONTENTS

PEO RESPONSIBILITIES	ii
PEO TACTICAL MISSILES' ORGANIZATION	viii
PEO TACTICAL MISSILES' STAFF	ix
AVIATION ROCKETS AND MISSILES (ARM).....	1
Laser HELLFIRE Basic AGM-114A, C & B	2
Interim HELLFIRE AGM-114F	4
HELLFIRE II AGM-114K	6
Longbow HELLFIRE AGM-114L	8
HELLFIRE Blast Fragmentation Warhead Missile AGM-114M	10
M299 HELLFIRE Launcher	12
Advanced Precision Kill Weapon System (APKWS) Block 1	14
HYDRA 70 Rocket System	16
HYDRA 70 Rocket Motor, MK66	18

TABLE OF CONTENTS

(continued)

HYDRA 70 Rocket Launchers	20
M261 Multipurpose Submunition (MPSM)	22
M255A1 Flechette	24
M151 HEPD	26
M229 HEPD	28
M278 IR Flare/M257 Illumination.....	30
